

Safety Concept: Behavior in Stormy Weather – Sipplingen, Lake Constance

Dear Participant, please read carefully the instructions in case of stormy weather during the workcamp. By participating in the workcamp you confirm to have read and to follow the instructions mentioned above.

1. Before the Storm

- Monitor weather warnings: Regularly check local weather forecasts and alerts from the German Weather Service (DWD) or Swiss Weather Service (Meteoschweiz).
- Follow the instructions of the camp leaders and the local host and **seek shelter immediately** in the solid building nearby in case of stormy weather. Leave your luggage and personal belongings in the big tent.

Close to the camping spot on the Yacht Harbor there is a solid sanitary building. Please go directly there and wait until the storm ends. Here you can see how to reach the solid building:

Safety Concept: Behavior in Stormy Weather – Sipplingen, Lake Constance

2. During the Storm

- Avoid open spaces: Leave forests, open fields, and bodies of water immediately.
- **Stay in the solid building until the storm is over.** Close all windows and doors to prevent damage from wind or rain.
- Listen to the instructions of the camp leaders and local host

3. After the Storm

- Avoid danger zones: Do not enter areas with fallen trees, downed power lines, or flooding.
