LMTV with GREAT

🌀 How is it LMTV with GREAT?

Long and Middle Term Volunteering is an international volunteering program where volunteers commits to a special thematic project of 2-6 months (middle term) or 7 - 12 months (long term). LMTV is mostly dedicated to do voluntary service in regular basis and for the purpose of the sustainability of the project. This activity is more of individual placement rather than in group. Sometimes there are 2 to 3 volunteers in certain project. LMTV projects give opportunity for the volunteer to experiment, to learn new things, to meet interesting people and to develop personal growth.

LMT volunteers will stay in one place within or nearby the project site, supporting and collaborating with local partners and/or local communities in planning, preparing, implementing and evaluating their activities. They are immersed into the local culture to a much greater extent allowing them to integrate better with the local community and actually become part of it. This way, LMTV enables sustainable work for peace and strengthen the bonds among volunteers, local communities and partners as project hosts, GREAT and other international partners as IVS NGOs.

The Aims of LMTV are:

1. To contribute to the sustainability of the related volunteering project
2. To give opportunity to the volunteers with their various backgrounds, skills and interests in reaching the goal(s) of the project.
3. To provide the space for volunteers to be involved in every phase of a project including need assessment, implementation, evaluation and giving recommendation to accelerate the goal(s) achievement of the project.

🌀 Volunteers' Profiles

1. 18 years old or older (check in each project description)
2. Highly motivated, self-organized, self initiative, responsible and well-prepared
3. Keen on learning Indonesian language informally integrated with local community
4. Self-reliant and capable of improvisation
5. Open minded, relax & adaptable, ready to adjust to different culture and customs
6. Agree to stay during the whole length of the project
7. Willing to have project's activities during the weekend or when GREAT organizes events on weekends

GREAT-LMTV06/Batuloceng/ West Bandung/ CUL, ENVI / in the beginning of every month except June 2017/18+/2vols

Project: Batuloceng village is a beautiful agricultural village with Sundanese culture located in the mountainous area in West Java. Within this village, there is a cultural organization called Kabuyutan Sri Sunda. This village also known for its coffee “Java Preanger”, the oldest coffee in West Java. The local people of Batuloceng are also trying to support government in reforesting the surrounding forest, conserving Cikapundung river by reducing the animal waste (cow dung), and prepare Batuloceng become an ecotourism village. The spirit and motivation brought by volunteers are expected to raise the motivation of the local people to preserve the environment and their local culture for their future. There is a need to have international experiences for the children as well as the youth to broaden their knowledge and soft skill in term of non-formal education approach combined with the formal education at school. At the same time, this project is also to offer the volunteers a chance to experience local culture of Sunda ethnic and support the local farmers to maintenance their farm.

Volunteering Activities: The main work is to support people to preserve the environment and their local culture. By getting involved as a part of the society, volunteers are expected to enhance motivate and raise the local’s awareness to preserve the forest, the springs water, the river, the environment in ecological way, the importance of learning English, and their culture. Volunteers could also organize school visit in the local schools. Please note that most of the students can be very shy for the first time to speak in English, which is why you need to be very patient and creative in building the atmosphere of the class. Volunteers need to build trust and relationship with the children before you do further activities.

Volunteers can support the local people to make cow dung bricks and wormcasting to conserve Cikapundung river from animal waste. Volunteers can share “reduce, reuse and recycle programs” to local people, because in the rural place they don’t have garbage management system. Volunteers can also support the farmers to enrich their farm by sharing how the organic farm is managed in your country, how to cultivate the soil, how to make local food product, product packaging, marketing strategy, etc. This village is famous of their products such as tomato, chili, lettuce, cabbage, broccoli, milk, etc.

This project is also open for volunteers who want to learn about agricultural and farming as well as learn the Sunda culture.

Working days: 25 to 40 hours/week. Sometimes the volunteers are needed during the weekend. Sometimes the volunteers are needed to support the local community and/or GREAT to do other voluntary action during the weekends.

Accommodation: Volunteers will stay with host family and have their own room.

Location: Kampung Batuloceng, RW 09 Desa Sunten jaya, Kecamatan Lembang, Kabupaten Bandung Barat

Language: English & Indonesian. **Volunteers must learn Indonesian Language prior their departure.** There will be sessions of Learning Indonesian Language in the On Arrival Training but the very basic one.

Starting date: First Tuesday/Wednesday every month except June 2017

**GREAT-LMTV09/ Young Guardian Club Borobudur Mentoring Program/
Borobudur Compound temple, Magelang, Central Java/Heri,Edu/ First
Tuesday/Wednesday every month except June & Dec 2017 /18+/2vols**

Project: GREAT is taking part in the effort of protection, promotion and conservation of the heritage sites in Indonesia. One of them is Borobudur Compound. Borobudur is listed in the World heritage List UNESCO since 1991 (<http://whc.unesco.org/en/list/592>). The main and still issue of Borobudur conservation is the mass tourism. At least three millions of domestic and international visitors step on the temple every year, this brings at least 150 million kg only from the weighs of tourists. The facts that the visitors step on the temple wearing different surface of shoes cause erosion to the stones. And the weather brings the unsheltered stones of the temple in higher risk of erosion. Therefore, it is important to organize sustainable action to raise the awareness of the visitors. At the same time, the involvement of local community into conservation activities for the temple has been a strong concern.

In consultation with Borobudur Conservation Office (BCO), GREAT combines both issues by engaging with one local youth who concerns this issue. They are the Young Guardian Club (YGC) Borobudur. The members of YGC of Borobudur are students of 15-17 years old from the local high schools.. <http://ygcborobudur.blogspot.co.id/>

YGC has missions to raise awareness of Borobudur conservation and its local culture to local youth and public youth. They carry out protection activities directly for the temple including cleaning and out reaching visitors to promote environment friendly tourist behavior, and being active for online campaign through

greatindonesia.org

Program Book 2017/ LMTV|GREAT

social media. However, the fact that YGC members are teenage students, they have challenges of dynamic of motivation, organizational skill, media and communication and so on. GREAT is committed to mentor them answer those challenges and make sure the capacity building for youth through this project.

In term of expanding the YGC Borobudur membership and access for more local youth, LMTV for Borobudur in 2017 will also focus on socializing the world-cultural heritage education, promoting about international voluntary service, presenting culture exchange and supporting English learning-exercise activities in some assigned schools, such as SMK 1 Muhammadiyah, SMA Muhammadiyah, SMP Muhammadiyah, Young Guardian Club members' schools and others.

In addition, volunteers will have some learning sessions in BCO with their staffs. It is usually implemented in the beginning of the stay such as the second week or after on arrival training. The activities include learning about the conservation works and divisions in BCO, its challenges, history of Borobudur especially its restoration and Borobudur mass tourism information. By having learning sessions in BCO, volunteers will have some upgraded knowledge that could be shared and presented at assigned schools. Volunteers are expected to be an active learner during the process. Other possible learning sessions are with Borobudur Park Enterprise and UNESCO Jakarta Office – Borobudur Community Development Project.

Volunteering Activities:

The LMTV program on January 5th 2017 – September 30th 2017 will have a series of objectives, by the period of volunteering, as follow:

- 1) Jan 5th – April 30th 2017
